## Introduction

From our Purescape family of stunning baths, comes yet another urban beauty. This new, freestanding model focuses on deep soaking comfort and ergonomic aesthetics in a very stylish exterior that successfully blends soft and hard edges in one.

Outwardly, this unique design delivers the hardwearing, glossy good looks of our superior quality Lucite acrylic, formed into a very original and edgy design that cleverly combines fluid bath ends with strong angular sides, that are both softly feminine and boldly masculine at the same time.

As a result, this bath lends itself to a very contemporary bathroom mood.

## Modern Hydromassage Bathtub for the 21st Century Specification Sheet

Internally, the 74.5-inch-long bath features capacious room for two, made more comfortable by the central waste and discreet side overflow outlet.

A number of out of this world features such as turbo-powered hydromassage take this bath to a whole new level of sophisticated luxury.

Aquatica's Purescape 107 HydroRelax freestanding tub is a modern and aesthetically pleasing bathtub with a deep and ergonomic interior.

The Purescape 107 HydroRelax includes variously advanced, top of the line additional features like the Air Assist Turbo Massage (AATM™); Underwater Chromotherapy Lighting; Water Heating with Temperature Control; the optional Bluetooth Enabled High-End Audio System with Stereo Speakers.

The optional Multiplex Trio electronic bath filler with thermostatic valve and built-in hand shower are optional extra items for the Purescape 107 HydroRelax.

Among the many other aesthetically attractive features of the new Purescape 107 HydroRelax is the modern, sleek looking and truly low profile SlickLine jets that are flush with the bath walls. The SlickLine jet front plates are exclusively made from chrome plated solid brass with perfect surface finishing, ensuring durability and long life.

In addition a number of other luxury features is available. Choose your therapy system and transport yourself to a new realm of indulgent bathing.

- Powerful Back Massage with Air Assist Turbo Massage (AATM™)
- Bottom Mounted Air massage
- Independently Operating Water heating with temperature control up to 40C (104F)
- Underwater chromotherapy lighting with various lighting shows
- The optional Bluetooth Audio system
- 10-year limited warranty on the bathtub shell
- 2-year limited warranty on the blower and the pump
- 2-year limited warranty for all electrical components and other parts, except drains
- 2-year overall limited whirlpool system warranty

### Multiplex Trio Electronic Bath Filler With A Colorful LCD Display

Optional beautifully designed electronic faucet made of gorilla glass with motorized drain and integrated fill function via drain or overflow outlet. Enjoy precise temperature control, fill level memory, electronic volume control and diverter functions. The simplicity of its operation makes it a great choice for any homeowner, not just the technology enthusiasts.

### Exclusive, State-of-the-Art Glass Keypad

State of the art capacitive glass keypad that controls all bath functions – the pumps, air-massage, chromotherapy and water temperature.

### Back massage with Air Assist Turbo Massage (AATM™)

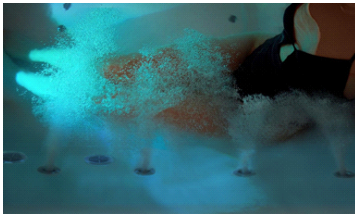

Powerful pump driven therapeutic back massage is a distinctive feature of Purescape 107 HydroRelax. Air Assist Turbo Massage (AATM™) provides a stronger and more intensive back hydromassage.

## Air-Assist Hydromassage System

Air is injected into the hydro massage system to achieve a more pleasurable massage effect.

## Upgrade To Our Exclusive, Capacitive Glass Wireless Keypad

Upgrade to our optional, state-of-the-art capacitive glass wireless keypad controls the pumps, water heating, Bluetooth audio system, stereo speakers and built-in subwoofers. Listen to your favorite tracks in the highest quality without a risk of watering your smart phone.

## Pre-Installed Underwater Chromotherapy System

Chromotherapy is said to employ light in the form of color to balance and harmonize the body. Aquatica have applied this to an integrated Chromotherapy system available in selected bathtub models to provide yet another delightfully relaxing and rejuvenating facet to bathing. Two low-profile LED lights fitted under the water provide a range of colors which can be set in slow rotation or fixed color mode to soothe the body and enhance energy levels. Each color in the program has different characteristics and there are a range of chromotherapy light shows bathers can choose from, to create their desired mood.

## Ozone Disinfection System

Our HydroRelax bathtubs are equipped with an innovative ozone water disinfection system for a healthier and more enjoyable bathing experience.
